Gibraltar RV Antifreeze - 50°

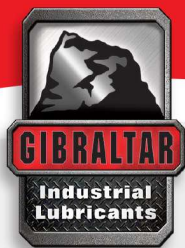

Gibraltar RV Antifreeze - 50° is a premium quality biodegradable antifreeze formulated using propylene glycol and used to protect potable water systems against freezing and corrosion damage. It is designed for use in summer homes, boats, and RV recreational vehicles as well as marine engines for protection during inactive winter storage.

Gibraltar RV Antifreeze - 50° replaces automotive-type ethylene glycol antifreeze products where toxicity and environmental or health safety are a concern. It protects against the corrosion of metal and is not harmful to elastomers and most plastics* commonly used in these cooling systems.

** not compatible with acetates and CPVC

Gibraltar RV Antifreeze - 50° provides the following benefits:

- Burst protection down to - 50° F
- Protection for all metals and elastomers
- Designed for potable water systems
- Non-Toxic
- Biodegradable
- Contains no alcohol

PRODUCT DATA SHEET

TYPICAL PROPERTIES

Propylene Glycol	35%
Performance Additives and Water	65%
Appearance	Clear, Orange Liquid
Specific Gravity @ 15°C	1.034-1.042
pH 50% Glycol	9.0-10.5
Reserve Alkalinity (min)	4
Freeze Point (max)	4°F
Burst Point	-50°F
